Hanco Ink, LLC 151 Stanley Street, Elk Grove Village, IL 60007 847-952-1500

# **MATERIAL SAFETY DATA SHEET**

I. PRODUCT IDENTIFICATION - Y-2716

I. PRODUCT IDENIIFICATION	r = 1 - 2/10			
		NAPIM/HMIS Rating		
		Health	1	
<b>Review Date:</b> 2-1-2013		Flammability	1	
<b>Print Date:</b> 2-1-2013		Reactivity	0	
		Personal Protection	SC	
	0 - Mi	nimal 1 - Slight 2 - Moderate		Extreme
		SC - Glasses, glov	es, apron	
II. COMPOSITION/INFORMAT	TION ON INGREDIENTS			
CHEMICAL NAME	% CAS # PEL	T	LV	
Proprietary				
III. HAZARDS IDENTIFICATIO	DN			
Routes of Entry:	Ingestion, Skin contact, Eye contact, Inhala	tion.		
Medical Conditions Aggravated:	Eye disease, Skin disease including eczema	and sensitization, Respiratory	disease including	asthma and bronchitis.
Immediate (Acute) Health Effect	s•			
Inhalation:	Can cause minor respiratory irritation, dizz	iness, weakness, fatigue, nausea	a, and headache. I	Harmful! Can cause
	systemic damage (see "Target Organs)			
Skin Contact:	Can cause minor skin irritation, defatting, and dermatitis.			
Eye Contact:	Can cause minor irritation, tearing and reddening.			
Skin Absorption:	Minimal hazard in normal industrial use.			
Ingestion:	Irritating to mouth, throat, and stomach. Can cause abdominal discomfort, nausea, vomiting and diarrhea. Small amounts of this product aspired (breathing in of liquid into the lungs) into the respiratory system during ingestion or			
Target Organ Acute Toxicity:	vomiting may cause mild to severe pulmon Eyes, Skin, Respiratory system, Central ner	ary injury, possibly progressing		
Long-Term (Chronic) Health Eff	ects:			
Carcinogenicity:	No data available to indicate product or any	v component present at greater	than 0.1% are sus	pected or listed as
	carcinogens. Not listed as a carcinogen by			r · · · · · · · · · · ·
Reproductive and Developmental Toxicity:	No data available to indicate product or any	y components present at greater	than 0.1% may c	ause birth defects.
Mutagenicity:	No data available to indicate product or any	y components present at greater	than 0.1% is mut	tagenic or genotoxic.
Inhalation:	Upon prolonged and/or repeated exposure, can cause minor respiratory irritation, dizziness, weakness, fatigue, nausea,			
Skin Contact:	and headache. Prolonged or excessive inhalation may cause respiratory tract irritation. Upon prolonged or repeated contact, can cause minor skin irritation, defatting, and dermatitis.			
Eye Contact:	Upon prolonged or repeated contact, can cause minor irritation, tearing and reddening.			
Skin Absorption	Upon prolonged or repeated exposure, minimal hazard in normal industrial use. No component(s) in this product are known to be absorbed through the skin.			
Target Organ Chronic Toxicity:	Skin, Respiratory tract, Central nervous system stimulation.			
Supplemental Health Hazard Information:	Individuals with pre-existing eye and skin disorders can be at greater risk.			
IV. FIRST AID				
Inhalation:	Remove to fresh air. If breathing is difficul	t, have a trained individual adn	ninister oxygen. S	eek medical advice if
Eyes:	symptoms persist Use an eye wash to remove a chemical from least twenty minutes. Tilt the head to preve			

Skin Contact:	advice after flushing. Wash with soap and water. Get medical attention if irritation develops or persists.
Ingestion:	Do not induce vomiting and seek medical attention immediately. Provide medical care provider with this MSDS. Induce vomiting as a last measure. Induced vomiting may lead to aspiration of the material into the lungs potentially
Notes to Medical Personnel:	causing chemical pneumonitis that may be fatal. Aspiration during swallowing or vomiting may severely damage the lungs. If evacuation of stomach contents is necessary, use method least likely to cause aspiration. Pre-existing allergies or eczema

## V. FIRE FIGHTING MEASURES

Storage:

Flammability Summary:	Combustible	
Flash Point:	<b>93</b> °C	<b>200</b> °F
Fire Hazards:		ignited only if preheated to temperatures above the high flash point, for example in a fire. Can burn toxic vapors. Container may explode in heat of fire.
Extinguishing Media:	liquid is burning	stant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may cause frothing if but it still may be a useful extinguishing agent if carefully applied to the fire. Do not direct a water not the hot burning liquid.
Fire Fighting Instructions:	Do not enter fire equipment. Use w distance and a pro occur if a water s build pressure and ineffective in fire	area without proper protection including self-contained breathing apparatus and full protective water spray/fog for cooling. Run-off from fire control may cause pollution. Fight fire from a safe otected location due to the potential of hazardous vapors and decomposition products. Frothing can stream is used. Notify appropriate authorities if liquid enters sewers or other public waters. Heat may d rupture closed containers, spreading fire and increasing risk of burns or injuries. Water may be e fighting due to low flash point, low solvent density, and limited miscibility with water.
Hazardous Combustion Products:	Carbon monoxide	e, Carbon dioxide, Nitrogen containing gases, Hydrogen chloride, Smoke, Toxic fumes.
OSHA Flammability Class: DOT Flammability Class:	Combustible Liqu Not Regulated	uid - Class III B
VI. ACCIDENTAL RELEASE M	IEASURES	
Health Consideration for Spill Response:	equipment recom	expected from the clean-up of this material if contact can be avoided. Follow personal protective immendations found in Section VIII of this MSDS. Ventilate the contaminated area. Poses little or no d Remove soiled clothing and launder before reuse.
Spill Mitigation Procedures:		
General Methods:	up and place in a	f leak or spill. Wear appropriate personal protective equipment as specified in Section 8. Spills: Pick a suitable container for reclamation or disposal. Use an inert absorbent such as sand or vermiculite. y labeled closed container.
Air Release:	Ventilate the area	a by opening door and/or turning on fans and blowers.
	Avoid runoff int	o storm sewers and ditches that lead to waterways. Do not flush to sewer. Notify authorities if entry
Water Release:	occurs. Retain al	Il contaminated water for treatment.
	occurs. Retain al Avoid runoff into container. Absor	Il contaminated water for treatment. o storm sewers and ditches that lead to waterways. Scoop up material and place in a disposal b spill with inert material (e.g., dry sand or earth), then place in a chemical waste container. Wash
Water Release: Land Spills: <i>VII. HANDLING AND STORAG</i>	occurs. Retain al Avoid runoff into container. Absord area with soap ar	Il contaminated water for treatment. o storm sewers and ditches that lead to waterways. Scoop up material and place in a disposal

Store in a cool dry ventilated location. Isolate from incompatible materials and conditions. Keep container closed when not in use. Keep away from sources of ignition. Store in a tightly closed container. Keep away from heat, sparks, and flame. Do not store in direct sunlight. Store in a cool dry place.

## VIII. ENGINEERING CONTROLS AND PERSONAL PROTECTIVE EQUIPMENT

Engineering Controls:	Local exhaust ventilation or other engineering controls are normally required when handling or using this product to avoid overexposure. Ventilation should effectively remove and prevent the buildup of any vapor/mist/fume generated from handling this product.
<b>Protective Equipment:</b>	
Respirator Type(s):	None required where adequate ventilation is provided. If airborne concentrations are above the applicable exposure limits, use NIOSH/MSHA approved respiratory protection.
Eyes:	Wear safety glasses when handling this product. Wear chemical splash goggles if splashing or high-pressure system is used.
Skin:	Wear protective gloves. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularly. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work. Use of protective coveralls and long sleeves is recommended. Launder contaminated clothing before reuse. Have a safety shower available. Contaminated clothing should be decontaminated then washed at a commercial laundry before re-use.
Glove Type:	Impervious rubber, Natural latex.

Physical State: Odor: Evaporation Rate:	Liquid Mild Resinous Slower than Butyl acetate
Organic Volatiles, % by weight:	5.59
Specific Gravity:	1.29
Boiling Point:	Not Determined

## X. STABILITY AND REACTIVITY

Stability Information:	Stable under recommended storage conditions.
Conditions to Avoid:	Temperatures above flash point in combination with sparks, open flames, or other sources of ignition.
Chemical Incompatibility:	Strong oxidizing agents.
Hazardous Decomposition Products:	Under normal conditions of storage and use hazardous decomposition products should not be produced.

## XI. TOXICOLOGICAL INFORMATION

No data available.

For toxicological information on the individual components, please call.

#### XII. ECOLOGICAL INFORMATION

Overview (for ingredients):	This material is not expected to be harmful to the ecology. No ecological information available. Keep out of waterways.
XIII. DISPOSAL CONSIDERATI	ONS
Disposal Methods:	Dispose in accordance with Federal, State, Provincial, and Local regulations. Materials may be compatible with industrial waste incineration or inclusion in a fuel blending program. This characterization is subject to approval by your waste management contractor. This material should be recycled if possible.

### XIV. TRANSPORTATION INFORMATION

Packaging and shipping of this material should be done in accordance with DOT and other applicable Federal and International Regulations.

## XV. REGULATORY INFORMATION

#### **CONEG** Legislation:

No CONEG metals are present above regulated limits

U.S Toxic Substance Control Act: All components of this product are either listed on the U.S. Toxic Substances Control Act (TSCA) inventory of chemicals or are otherwise compliant with TSCA regulations.

XVI. ADDITIONAL INFORMATION The information in this Material Safety Data Sheet should be provided to all who will use, handle, store, transport, or otherwise be exposed to this product. This information has been prepared for the guidance of plant engineering, operations, and management and for persons working with or handling this product. The information presented in the MSDS is premised upon proper handling and anticipated uses and is for the material without chemical additions/alterations. We believe this information is up-to-date as of the date of publication and provide it in good faith, but make no warranty of any kind with respect to such information on this product.

Hanco lnk, LLC warrants only that its products consist of its published specifications. Hanco lnk, LLC does not make any (other) warranty, expressed or implied, including warranty of merchantability or warranty of fitness for a particular purpose and does not assume any liability resulting from the use of its products. Users should make their own investigation to determine the suitability of the information and the products for their particular purpose. We cannot guarantee results on all types of presses, stocks, etc., and we assume no liability in connection with the use of these products. In no event shall Hanco lnk, LLC be liable for any claims, losses, or damages of any third party or for any special, indirect, consequential, exemplary or punitive damages ( including without limitation economic loss or loss of profits) of any kind of nature for any reason.
